

Lake Orono Improvement Association

Wednesday June 17th, 2015 @ 6:10PM

Annual Meeting Minutes

Location: Lake Orono Park Shelter

The annual Meeting was called to order by President Ed Bury @ 6:10PM

President Bury introduced new members.

Minutes from the 2014 annual meeting were presented by Charlene Sheets. They were approved as read.

The budget for 2015 was presented by Secretary/Treasurer Charlene Sheets. The budget was approved as presented.

Patrick Plant, representing the Lake Orono Water Quality Committee, led a discussion regarding water quality. There was dialogue regarding the continuing weed problem: permits required, studies that have been done, treatments done by Lake Restoration Inc. Main topics needing to be addressed: re-sedimentation, curly leaf, natural plant overgrowth and significant pockets of algae growth.

Jerry Olson, representative of Ward 1, shared some thoughts about how to proceed and communicate with the city council. There was a conversation about how it would be more beneficial if some of the council members actually got out on the water to see what was actually happening in the water rather than just looking at a map.

A motion was made by Christy Cox, seconded and approved, asking that the Board compose a letter listing the organization's major concerns to be given to the city council and request that we be put on their agenda for further discussion.

Adjourned @ 6:50PM
